## **University Counseling Center**

The University Counseling Center (UCC), a department in the Division of Student Affairs, provides counseling services and programs to help students resolve psychological issues and personal concerns that interfere with academic progress, social development, and emotional well-being. Our goal is to help students function to the best of their abilities and make the most of their years at FSU. Because student fees cover these services, there is no out-of-pocket expense for any visit for all currently enrolled FSU Students. UCC services are provided by licensed psychologists, licensed mental health counselors, licensed clinical social workers and trainees on varying levels. These services include but are not limited to brief individual therapy, group therapy, crisis intervention, consultation, and referrals. Outreach presentations on mental-health topics and life skills are available to students, residence halls, student organizations, faculty, and staff. The UCC sponsors RENEW (Realizing Everyone's Need for Emotional Wellness), a peer-educator student organization whose mission is the promotion of emotional health and coping skills to FSU students. Students can receive individual instructional sections by RENEW members on various topics including time management, stress management, and test anxiety. Enrolled students may initiate counseling services by walking in to the UCC during regular office hours and requesting to speak with a clinician. When meeting with a clinician at walk-in, the clinician will determine the best plan for meeting the individual student's mental health needs. In addition, students who are experiencing a mental health crisis at a time outside of the UCC's regular office hours have the option of calling the UCC's after-hours service at 850-644-TALK and immediately speaking with a clinician. Records of visits to the UCC as well as after-hours crisis calls are strictly confidential and are not included in the student's University records. Confidential information will not be released to anyone without written permission, unless there appears to be clear and imminent danger to the student or others. Students who are aware that they will require longer-term treatment are encouraged to make arrangements for private care in the community before entering the University. However, if necessary, the University Counseling Center's staff will make referrals for ongoing treatment in the Tallahassee community. Treatment outside the center will be at the student's expense.
