

Graduating Seniors: Comp. Science

The Career Center, in conjunction with the Division of Student Affairs and Institutional Research, has administered a survey to graduating seniors for over a decade, asking students about their post-college plans and their overall FSU experience. Of all the Department of Computer Science graduates from Summer 2013, Fall 2013, and Spring 2014, 73 graduates participated (85%). The data presented in this report are based on responses to the Graduating Senior Survey at the point of graduation with data on employment and continuing education outcomes updated for graduates who responded to the six-month follow-up survey.

Computer Science Post-Graduation Plans

Data indicate that over four-fifths of Computer Science graduates are seeking employment after graduation, and nearly one-fifth are pursuing further education.

Computer Science Post-Graduation Employment

Three-fourths of graduates whose primary plan was employment received at least one offer of employment and are employed in a wide variety of industries. Also, Computer Science graduates most frequently found jobs that were full-time, were related to their major, required a degree, and were located in Florida.

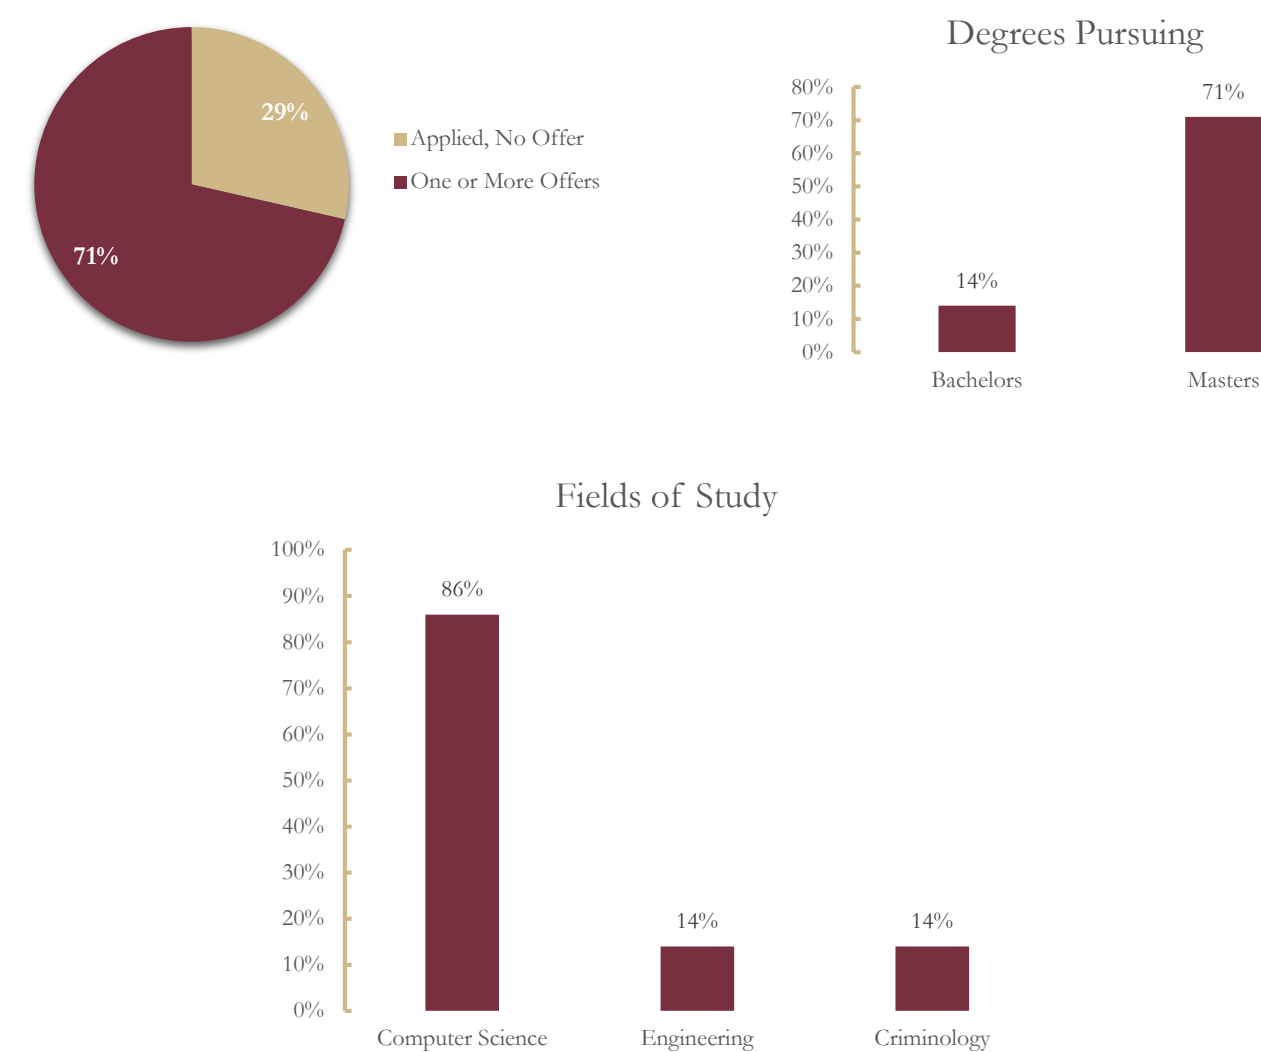

Top 5 Employment Industries

Computer Science Post-Graduation Education

Nearly three-fourths of graduates whose primary plan was to continue their education in Spring of 2014 received at least one offer of acceptance at a college or university and are studying in a wide variety of fields.

Computer Science Student Characteristics

Computer Science graduates have success both inside and outside of the classroom, and participate in various extracirricular activities.

Professional Experience

35% of graduates completed an internship

Giving Back

27% of graduates participated in community service

Campus Involvement

85% of graduates participated in one or more campus activities

Research Experience

23% of graduates participated in a research project

Global Experience

4% of graduates participated in study abroad

Academic Excellence

8% of graduates participated in the honors program
