# Introduction

President T.K. Wetherell

# The Mission Statement of The Florida State University

**Vision:** Florida State University aspires to be recognized as one of the top twenty public universities in the nation, with no fewer than one-third of its Ph.D. programs ranked among the top fifteen such programs at public universities nationally. The faculty are committed to earning membership in the Association of American Universities.

**Mission:** Florida State University is a comprehensive, national, graduate research university that puts research into action for the benefit of our students and society. Our extensive graduate programs and our law and medical schools enrich the graduate, professional and undergraduate experiences, making Florida State University a demanding and intellectually stimulating environment for students and faculty.

With an impressive breadth of programs, Florida State University has leading undergraduate, graduate and professional programs in a variety of fields. Some of the many programs that consistently rank among the top twenty-five at the nation's public universities include those in Business, Chemistry, Creative Writing, Criminology, Ecology and Evolutionary Biology, Information, Law, Meteorology, Oceanography, Physics, Political Science, Psychology, Public Policy, Sociology and Statistics. Our mission is to maximize the excellence in all our programs, with special emphasis on programs that already have earned national and international acclaim. Florida State University's arts programs—including Dance, Film and Music—rank among the finest in the world.

At the Ph.D. level, notable research faculty provide a range of interdisciplinary offerings that transcend the traditional disciplines, including Neuroscience, Molecular Biophysics, Computational Science, Materials Science and research at the National High Magnetic Field Laboratory.

Florida State provides world-class opportunities for graduate and professional students to:

- learn and conduct research with internationally recognized scholars;
- conduct research in specialized interdisciplinary centers, such as the National High Magnetic Field Laboratory, the Reading Research Center, the Institute of Molecular Biophysics and the School of Computational Science;
- participate in other interdisciplinary work across campus, such as efforts that integrate economics, geography, climate forecasting, law and other environmental courses and programs; and
- work with faculty to forge new relationships among professions, including medicine and information, the physical sciences and engineering, business and law, human sciences, nursing and social work.

Florida State provides extraordinary opportunities for undergraduate students to:

- select from nationally ranked programs, ranging from the basic sciences to the performing arts;
- build a strong liberal arts base for their chosen field of study;
- live and learn in residence halls designed around academic programs;
- study abroad at the finest centers in the world;
- participate in an Honors Program, ranked among the best in the country;
- interact with a diverse faculty including outstanding minority and women scholars; and
- study with some of the finest graduate and professional students and faculty in the nation

Florida State University owes special allegiance to the citizens and taxpayers of the State of Florida. Florida State exists to:

- educate students from the diverse communities in Florida, the nation and the world in an environment that emphasizes research, inquiry, and excellence;
- identify, create, celebrate, and disseminate important knowledge;
- maximize the opportunities for its students;
- contribute to the economic development of the State of Florida and the nation;
- harness contributed dollars and contract and grant activity for the benefit of our students and society; and
- generate research that will benefit the citizens of Florida, the nation and the world

**Goals:** Our goal is to become recognized nationally and internationally for our teaching and research programs, including making significant progress towards the goal of being invited to become an AAU member institution.

- Enhance undergraduate education by recruiting, retaining and educating outstanding undergraduate students on a diverse campus.
- Promote excellence in undergraduate teaching by fostering a campus community of excellence.
- Ensure academic excellence by developing, retaining and rewarding talented and diverse faculty.
- Promote excellence in graduate education and research.
- Encourage the dissemination and transfer of knowledge by providing broad access to institutional resources and services to the community and to the State.
- Promote and foster learning by maintaining and expanding facilities and technology.

## Overview

The Florida State University is a public, fully accredited, coeducational research institution, and one of eleven units within the Division of Colleges and Universities directed by the Florida Board of Education. Located in Tallahassee, Florida's capital city, the University affords students and faculty opportunities for interaction with state and federal agencies for internships, research, and part-time employment, as well as a myriad of social, cultural, and recreational activities. The main campus is located on 451.6 acres in Tallahassee with other facilities owned in Leon, Bay, Collier, Franklin, Sarasota, and Gadsden counties, and leased in Marion and Leon counties in Florida, and other locations overseas.

Founded in 1851, Florida State University is a comprehensive, national, graduate-research university offering more than 300 outstanding academic and professional degrees in top flight programs ranging from Business and Physics to Music and Creative Writing. Florida State University provides extraordinary opportunities for undergraduate students to build a strong foundation in their chosen fields; study abroad at the university's overseas campuses; engage in scores of service activities, benefit from world class library and technical facilities; participate in extensive intermural and recreational events; and interact with some of the finest students and faculty in the nation in a distinctive, welcoming environment. The university instills the strength, skill, and character essential for lifelong learning, personal responsibility, and achievement.

With 16 colleges, students may take courses of study leading to the baccalaureate degree in 100 degree programs, to the master's degree in 114 degree programs, to the advanced master's degree in 1 program, to the specialist degree in 26 degree programs, to the doctorate degree in 74 degree programs, and to the professional degree in 2 degree programs. The academic divisions are the Colleges of Arts & Sciences; Business; Communication; Criminology & Criminal Justice; Education; Engineering; Human Sciences; Information; Law; Medicine; Motion Picture, Television & Recording Arts; Music; Nursing; Social Sciences & Public Policy; Social Work; and Visual Arts, Theatre & Dance.

Approximately 83 percent of the students enrolled at the university attend full time. Undergraduates comprise 75.7 percent and graduate students 21.4 percent of the total enrollment of 39,136 students in the Fall of 2008. The remaining 2.9 percent are considered unclassified. The average age of all students is 23.1; of undergraduates, 21.1; and of graduate students, 29.6.

The State University System operates under the supervision of the Board of Governors, State of Florida. The Florida State University is governed by a Board of Trustees, which was established in July, 2001. The twelve governor-appointed members of the Board of Trustees are: Jim Smith (Chair), Harold Knowles (Vice Chair), Derrick Brooks, Emily Fleming Duda, David Ford, Manny Garcia, Wm. Andrew Haggard, James Kinsey, Jr., Richard C. McFarlain, Leslie Pantin, Jayne Standley and Susie Busch-Transou. A thirteenth member of Florida State University's Board of Trustees is the current student body president, Laymon Hicks.

## Research and Special Programs

The Florida State University has built a reputation as a strong research center in both the sciences and the humanities. It is expected that more than \$100 million in external funds will be generated this year by the university faculty and administration as supplements to state funds used for research. These external funds are in the form of contracts and grants from private foundations, industries, and government agencies, and are used to support research, improve research facilities, and provide stipends for graduate students.

Florida State is well known in the natural sciences for its basic research programs in biology, chemistry, meteorology, nuclear science, oceanography, physics, and psychology. Strong basic and applied research programs are also found in computer science, geology, mathematics, and statistics.

As a nationally recognized center of excellence in graduate training in the visual and performing arts, the University offers professional training in music, theatre, and dance performance and theory.

Florida State University International Programs has over 50 years of experience in providing students with extraordinary study abroad experiences. Through our more than 40 challenging academic programs, students can choose to study in over 20 global locations throughout Europe, Asia, South America, and Oceania. Program opportunities include spring, summer and fall semesters at our four study centers, short summer terms in additional locations, First Year Abroad for incoming freshmen, international internships, and College for High School for students wishing to experience studying abroad while still in high school. The year-round study centers are located in Florence, Italy; London, England; Panama City, The Republic of Panama; and Valencia, Spain. Summer program locations include Australia, Belgium, China, Costa Rica, Croatia, Czech Republic, Ecuador, France, Hungary, Ireland, Japan, Russia, Scotland, South Korea, and Switzerland. FSU credits are earned for all courses and are transferable within the US university system, in accordance with each student's home university regulations.

FSU operates the Ringling Center for the Cultural Arts in Sarasota, which includes the John and Mable Ringling Museum of Art, the largest museum/university complex in the nation. Since July 1, 1990, the Appleton Museum of Art, in Ocala, has been jointly owned by Florida State University and Central Florida Community College.

Florida State University has both an Air Force and an Army Reserve Officers' Training Corps (ROTC) program. FSU students may apply for admission to the Navy ROTC Program offered through Florida Agricultural and Mechanical University in Tallahassee.

FSU is a founding member of the Florida LambdaRail, a consortium of universities created to facilitate advanced research, education, & economic development activities. The network consists of 1,540 miles of fiber/optical equipment, operating at 10 gigs/sec, & allowing up to 32 independent networks to exist. FSU has a supercomputing grid that enables researchers to use high capacity computing to support complex investigations. The FSU Help Desk is available to assist students, faculty, and staff.

The University Library System contains over 3.4 million volumes, of which more than 451,700 are available electronically as e-books. The libraries subscribe to more than 107,000 current serials including academic journals, professional and trade journals, and major newspapers from around the country and the globe in both paper and electronic formats. The libraries also subscribe to more than 350 databases. The FSU Libraries include eight libraries on campus: The Robert Manning Strozier Library, Paul A. M. Dirac Science Library, Mildred and Claude Pepper Library, Warren Allen Music Library, Harold Goldstein Library and Information Science Library, College of Law Library, College of Medicine Medical Library, and the College of Engineering Library. Library materials and services are also available at the FSU Panama City Campus, as well as International Programs study centers in London, Florence, and Panama, and a collection of art and related materials at the John and Mable Ringling Museum of Art in Sarasota, Florida.

Among the special programs which have won national or international distinction in research are the Program in Nuclear Research, Institute for Molecular Biophysics, FSU Marine Laboratory, Center for Music Research, Learning Systems Institute, FSU Proton-Induced X-Ray Emission (PIXE) Laboratory, FSU Institute of Science and Public Affairs, and the College of Motion Picture, TV, and Recording Arts.

In 1990, the National Science Foundation announced that FSU would be the home of the National High Magnetic Field Laboratory. A joint project with the University of Florida and Los Alamos National Laboratory, the lab became the nation's top center for research on magnets millions of times more powerful than the Earth's magnetic field. This facility is the first national lab to be located in Florida and went into operation in 1994. Research at the lab is conducted in such diverse fields as biology, materials science, medicine, physics, chemistry, engineering and superconductivity.

## Seal of The Florida State University

The seal of The Florida State University, which was designed by the combined talents of the Art and Classics Departments, has its origins in the first decade of the 20th century during the administration of President Albert A. Murphree. It was updated in the year 2000 to accurately reflect the year that Florida State University was created, 1851. In 2005 minor cosmetic updates were made to the seal.

The torches of the seal symbolize the fire given to man by the Greek god Prometheus. This fire enabled man to elevate himself above the animals and become human. The torches of the FSU seal symbolize the purpose of the University: the passing on of knowledge from generation to generation. The torch on the left is Vires: strength of all kinds, physical, moral and intellectual. The center torch is Artes: that which we acquire - knowledge which transcends skills, the appreciation of beauty. The torch on the right is Mores: customs, character and tradition. Through these three ideals the student is educated physically, mentally and morally.

## History of The Florida State University

The Florida State University, one of the largest and oldest of the eleven institutions of higher learning in the State University System of Florida, had its beginning as early as 1823 when the Territorial Legislature began to plan a higher education system. In 1825 the Federal Government reserved two townships for the purpose of maintaining institutions of higher education in the territory, and on March 3, 1845, the United States Congress, in an act supplemental to the act admitting Florida as a state in the Union, added two more townships. These townships were granted to the State for the use of two seminaries of learning, one to be located east and the other west of the Suwannee River. The Legislature of the State of Florida in a Legislative Act of January 24, 1851, provided for the establishment of the two institutions of learning, their first purpose to be "the instruction of persons, both male and female, in the art of teaching all the various branches that pertain to a good common school education; and next to give instruction in the mechanic arts, in husbandry, in agricultural chemistry, in the fundamental laws, and in what regards the rights and duties of citizens."

By 1854 the City of Tallahassee had established a school for boys called the Florida Institute with the hope that the State could be induced to take it over as one of the seminaries, and in the 1854 session of the Legislature of Florida the City of Tallahassee presented a memorial asking that the institution west of the Suwannee be located in that city. That effort was not successful, but in 1856 the Intendant (Mayor) of Tallahassee again offered the Institute's land and building to the Legislature. Francis Eppes, who spent his formative years on the estate of his grandfather President Thomas Jefferson at Monticello in Virginia and shared his views of the importance to a democracy of a liberally educated citizenry, was the Mayor of Tallahassee who made the offer. This time they chose to accept the offer and designated Tallahassee as the site of one of the state seminaries because of its railway connections, its "salubrious climate," and its "intelligent, refined, and moral community." The bill to locate the Seminary in Tallahassee passed both houses and was signed by the Governor on January 1, 1857. On February 7, 1857, the first meeting of the Board of Education of the State Seminary West of the Suwannee River was held, and the institution began offering postsecondary instruction to male students. Francis Eppes served as President of the Seminary's Board of Education for eight years and instilled in the institution the Jeffersonian ideals which characterize it today. The school first became co-educational the following year (1858) when it absorbed the Tallahassee Female Academy, begun in 1843 as the Misses Bates School. Thus the West Florida Seminary, founded in 1851, began operating in 1857, only twelve years after Florida achieved statehood. It was located on the hill where the Westcott Building now stands, which has been the site of an institution of higher education longer than any other site in Florida.

Classes were held at the West Florida Seminary from 1857 until 1863, when the state legislature changed the name to The Florida Military and Collegiate Institute to reflect the addition of a military section which trained cadets. During the Civil War, cadets from the school, ranging in age from twelve to eighteen, fought in the Battle of Natural Bridge and helped make Tallahassee the only Confederate capitol east of the Mississippi not captured during the war. As a result of the brave action of the West Florida cadets in this battle, the Florida State University Army ROTC cadet corps today is one of only three in the nation authorized to display a battle streamer with its flag, which bears the words NATURAL BRIDGE 1865. After the end of the war in 1865, however, Union troops under General McCook descended upon Tallahassee and occupied the city (including campus buildings), remaining for more than a month.

Following the war, the institution entered a period of growth and development. In 1884 the first diplomas, Licentiate of Instruction, were awarded, and by 1891 the Institute had begun to focus clearly on what we would today call post-secondary education; seven Bachelor of Arts degrees were awarded that year. By 1897 the institution had evolved into the first liberal arts college in the state, and in 1901 it became Florida State College, a four-year institution organized in four departments: the College, the School for Teachers, the School of Music, and the College Academy. Florida State College was empowered to award the degree of Master of Arts, and the first master's degree was offered in 1902. That year the student body numbered 252 men and women, and degrees were available in classical, literary and scientific studies. In 1903 the first university library was begun. The following quote from the 1903 Florida State College Catalogue adds an interesting footnote to this period:

"In 1883 the institution, now long officially known as the West Florida Seminary, was organized by the Board of Education as The Literary College of the University of Florida. Owing to lack of means for the support of this more ambitious project, and also owing to the fact that soon thereafter schools for technical training were established, this association soon dissolved. It remains to be remarked, however, that the legislative act passed in 1885, bestowing upon the institution the title of the University of Florida, has never been repealed. The more pretentious name is not assumed by the college owing to the fact that it does not wish to misrepresent its resources and purposes."

In a 1905 reorganization of Florida's educational system by the Legislature, six state institutions of higher learning were consolidated into two when the University of Florida in Gainesville was established and designated a men's school and the Florida State College became a women's school called the Florida Female College. The male student body moved from Tallahassee to Gainesville, taking with it the fraternity system and the College football team, which had been state champions in 1902, 1903, and 1905. In 1909 the name of the college was changed to Florida State College for Women, an institution which grew to become the third largest women's college in the nation during the 1930's. The College became fully accredited in 1915, and a chapter of the National Honor Society of Phi Kappa Phi was installed in 1925, the year after the College was placed on the list of standard colleges and universities approved by the Association of American Universities and became a member of the Association of American Colleges. In 1935 the first chapter of Phi Beta Kappa in the state, Alpha Chapter of Florida, was installed at the College, a mark of its status as a true liberal arts college.

# History of The Florida State University

The year 1947 saw many changes. Demand by returning World War II veterans had brought men back to the campus in 1946 with the establishment of the Tallahassee Branch of the University of Florida, and on May 15, 1947, the Governor signed an act of the Legislature returning Florida State College for Women to coeducational status and naming it The Florida State University. A permanent president's residence was acquired. The student body, numbering 4,056, chose a new alma mater and selected the Seminole as their mascot. The Flying High Circus was born, and football was started again when the first home game since 1905 was played in October. Three years later Campbell Stadium was built. The first Student Union was established and housed in the "O Club" on West Campus, a former Army Air Base which housed mainly male students and provided some classroom space three miles west of the main campus.

The 1950's brought further development and expansion to the University. To the colleges and schools which had existed since the Florida State College days (Arts and Sciences, Education, Home Economics, and Music) were added Library Science, Social Welfare (later split into Social Work and Criminology), Business, Journalism (discontinued in 1959), and Nursing. A student in the Department of Chemistry was awarded the University's first Ph.D. in 1952. A new building was completed for the Developmental Research School, which in 1905 had evolved from the High School and the College Academy of earlier days as the Observation and Practice School, created to provide on-site opportunities for experience and research to students in Education. Tully Gymnasium, Strozier Library, and the Business Building were completed to enhance the education of the ever-increasing student population.

In the 1960's the University acquired the Shaw Poetry Collection, established the institutes of Molecular Biophysics and Space Biosciences, and constructed nine new buildings, including the Oglesby Union and the Fine Arts Building. During this period, the Panama Canal Branch was opened, and the Program in Medical Sciences was established. The first black student enrolled in 1962, and the first black Ph.D. candidates graduated in 1970. Programs in African American Studies and Women's Studies were established. Continuing the liberal arts tradition begun in the 1890's, the Liberal Studies Program required of all undergraduates was expanded and strengthened.

Before 1887 the institution's chief executive officer had the title Principal, but this was changed to President with the appointment of George Edgar in 1887. He was followed by Alvin Lewis in 1892, and Dr. A. A. Murphree in 1897. Dr. Murphree, who came to the Seminary in 1896, became president of Florida Female College in 1905. When he left to become president of the University of Florida in 1909, Dr. Edward Conradi became president of Florida State College for Women. In 1941, Dr. Doak S. Campbell became president. When Dr. Campbell retired as president of The Florida State University on June 30, 1957, Dr. Albert B. Martin served as acting president until September 1, 1957, when Dr. Robert Strozier became president. At Dr. Strozier's death in April of 1960, Dr. Milton W. Carothers became acting president to serve until Dr. Gordon Blackwell took over the duties of president on September 16, 1960.

On February 1, 1965, Dr. John E. Champion became acting president replacing Dr. Gordon Blackwell, who resigned. Dr. Champion was named president on June 22, 1965; he resigned February 17, 1969, and Dr. J. Stanley Marshall was appointed acting president on the same date. On June 6, 1969, the Board of Regents named Dr. Marshall President; he resigned August 31, 1976. Dr. Bernard Francis Sliger became Interim President on Dr. Marshall's resignation, and on February 7, 1977, the Board of Regents named Dr. Sliger President. At the Fall Meeting of the General Faculty on September 18, 1990, the Dean of the Faculties read a statement on Dr. Sliger's behalf announcing his resignation as president effective August 1, 1991. On March 11, 1991, Dr. Dale W. Lick was designated to succeed Dr. Sliger as president on August 1, 1991. After Dr. Lick's resignation on August 31, 1993, Dr. Sliger was again named Interim President. On November 29, 1993, H. Talbot "Sandy" D'Alemberte was designated president effective January 3, 1994. He was succeeded by President Thomas K. Wetherell on January 6, 2003.

In each succeeding decade, Florida State University has added to its academic organization and presently is comprised of sixteen independent colleges. It has expanded from the original few acres and buildings to 542 buildings on 1,550 acres, including the downtown Tallahassee main campus of 452 acres, a farm which for many decades supplied the Florida State College for Women with food, the Seminole Reservation--a recreational facility, the Coastal and Marine Laboratory on the Gulf Coast, the FAMU/FSU College of Engineering facility, the National High Magnetic Field Laboratory and Division of Research at Innovation Park, and the branch campus in Panama City, Florida. One hundred fifty-seven years after its founding, Florida State University started the 2008-2009 academic year with a student population of over 39,000 and recognition as a major graduate research institution with an established international reputation.

# Faculty Senate

The nature of faculty involvement in the governance system of the Florida State University is set forth in the Constitution of the university, which designates the Faculty Senate as the basic legislative body of the institution. This structure has been in place since May, 1931, when an amendment to the institution's constitution establishing the Senate was adopted by the general faculty and approved by the Board of Control of the state. A number of major amendments have been made since that time relating to elections, committees and other matters. Prior to 1974 the President of the university was the presiding officer of the Senate, but an amendment that year changed the procedure to stipulate that the Senate elect annually its own President from the elected Senators comprising the body.

The Faculty Senate is composed of at least one elected representative from each college and school and one representative each from the Librarians and the Developmental Research School. Except for the two latter representatives, only full-time instructors, assistant professors, associate professors, and professors are eligible for representation in and election to the Senate. Senators serve two-year terms which begin at the April meeting of the Senate, at which time the President of the Senate is elected. The Steering Committee is composed of seven members elected by the voting members of the Senate to staggered two-year terms; the President of the Senate serves as chair of the committee.

The Faculty Senate formulates measures for maintaining a comprehensive educational policy and for maximum use of the University's intellectual resources. It determines and defines University-wide policies on academic matters, including Liberal Studies policy, admission, grading standards, and requirements for the awarding of degrees. The Senate may also formulate opinions on any subject of interest to the University and adopt resolutions thereon.

Brief History of the State of Florida and the City of Tallahassee

Thousands of years of Indian occupancy preceded the European discovery of the Florida peninsula. An estimated 100,000 native Americans were living here at the time of its discovery by Juan Ponce de Leon in early 1513. As Ponce de Leon's arrival coincided with the Spring Pascua Florida festivities in Spain, he named the new land "Florida," which meant "filled with flowers."

Prior to 1821, Florida had consisted of two Spanish colonies that were ceded to Great Britain in the settlement of the Seven Years' War (1756-1763). In 1821 President James Monroe appointed Andrew Jackson as territorial governor. One of the new governor's first acts was to organize the territory into two counties, Escambia and St. Johns, with the Suwannee River serving as the dividing line.

Population Statistics

Florida ranks 4th in population in the United States of America, Leon county ranks 20th in population in the state of Florida and Tallahassee is the 8th largest city in the state.

\* Allowable exclusions for FTIC students include those who left to serve in the military, or any members of the original cohort who are deceased or permanently disabled.

Note: The fall cohort consists of full-time, FTIC students from the fall semester and the previous summer who continue into the fall. Students are followed through the end of summer so that each year begins with fall and ends with summer semester. The number re-enrolled is the number of students from the original fall cohort that were enrolled in the fall, spring or summer semester of the year indicated. The percent graduated is cumulative. Retention includes the number who re-enrolled plus the graduates of previous years.

# Panama City Campus Student Headcount Enrollment, Fall Semesters

The Panama City Campus of The Florida State University began operations in 1967 when three universities started offering courses to area students. The University of West Florida was assigned to administer the campus in 1971, and that administrative responsibility was transferred to The Florida State University in July, 1982. The Bay County Commission donated a 26-acre waterfront site for constructing new campus facilities to replace buildings loaned by the Bay County School Board and Gulf Coast Community College. Construction of the new campus facilities began in 1983, and the new buildings were ready for use during the 1987 Spring Semester.

Students enrolled at the Panama City campus are served by a filled faculty FTE of 30.3, plus additional faculty who travel from the Tallahassee campus. Area students are offered many of the same courses and structure, content, and expertise available to Tallahassee campus students.

## Eppes Professors

The Eppes professorship is named after Francis Eppes, the grandson of President Thomas Jefferson, who played a vital role in convincing the Florida Legislature to locate The Seminary West of the Suwannee, FSU's institutional predecessor, in Tallahassee. Over and above professors holding the university's Eminent Scholar chairs, the Francis Eppes Professorship is the ultimate honor, given to a few professors who are ranked at the very top of their field, who portray genuine leadership qualities and who are committed role models for their students. The Eppes professors are often deemed "Superprofessors" because of the high quality of their character, vision and intellect.

2007	Louise Jones Gopher

# Support Services

In Spring 2009, Florida State University opened its new, 45,000-square-foot Materials Research Building on the Southwest campus. It will be home to FSU's High-Performance Materials Institute ([www.hpmi.net](http://www.hpmi.net)).

## Institutes & Research Centers

Institutes and Research Centers are entities proposed by universities, the Legislature, or the Florida Board of Education (FBOE); approved by the Board of Governors (BOG) and/or the Chancellor or a university president (depending on the type of institute/center); and established by the universities for the purpose of coordinating intra- and/or inter-institutional research, service, and training activities that supplement and extend existing departmental instruction, research, and service programs. In some instances, institutes/centers are established by law, in which case they operate in accordance not only with State University System policies, rules, and procedures, but also with state statute. The institutes and centers, along with their directors, are listed below. This list is accurate as of March 2009.

## BUILDINGS OF FLORIDA STATE UNIVERSITY SOME HISTORY, SOME FACTS, SOME DESCRIPTIONS

Many buildings (14 described below) remain today from the pre-Florida State University era, however none are still standing from the nineteenth century. The current university is built from a core of buildings that remain from the days of the Florida State College for Women. The oldest building on campus, Bryan Hall, was built during the days of the Florida Female College, immediately prior to the FSCW designation. A current campus map depicting all campus buildings is available in the appendix of this book.

### BRYAN HALL

Bryan Hall, the oldest existing structure on the Florida State University campus, was originally built in 1908 and named in honor of United States Senator William James Bryan. The building served as a residence hall until 1969 when a fire in the Westcott Building forced administrators to seek office space in Bryan Hall. Although some offices later returned to Westcott, others remained until the construction of the University Center made the hall available for restoration as a residence hall. The two-year renovation project was completed in January 1997 and the building was opened again as a residence hall in August 1997.

### WESTCOTT BUILDING

The Westcott Building and Westcott Auditorium were constructed in 1909 and occupied in 1911. Westcott was known as the Administration Building until 1936 when it was officially named the James D. Westcott, Jr. Memorial Building by the Board of Control, the governing body of higher education in Florida at the time. James D. Westcott, Jr. was born in Tallahassee in 1893 and served the State of Florida as Attorney General and as a Supreme Court Justice. The Westcott Building burned in 1969 and when it was renovated, the fourth floor, previously an attic, was added as regular office space. In 1971, the Westcott Auditorium was named the Ruby Diamond Auditorium after Miss Ruby Diamond who attended Florida State College for Women and later became a benefactor of the University. In 2008, the auditorium was closed for renovation. It is scheduled to reopen in 2010.

### REYNOLDS HALL

Reynolds Hall was constructed in 1913 and named for Melissa E. Cochrane Reynolds, the first Lady Principal of The Florida State College for Women. Reynolds Hall was one of five historic residence halls to be renovated in a multi-million dollar project. During the renovation, the historical and esthetic value of the building was preserved, in addition to providing up-to-date comfort and safety for students. Reynolds reopened in 1996 as a residence hall.

### WILLIAM JOHNSTON BUILDING

Constructed in 1913, for over 60 years this building was known as the Dining Hall. When first constructed, it housed all the food operations including a bakery, creamery, and cannery. The eastern portion of the building, called the Suwannee Arcade, was the informal dining facility, while the western portion of the building contained two grand formal dining rooms with the President's private dining area above and between. At one time, all the dormitories and the infirmary were connected to the dining hall by a series of arcades, making it possible for students to reach the dining facilities and avoid any inclement weather. The Suwannee Arcade was restored and reopened in Spring 2006 as a student dining facility. The building was named in the early 1980s for William H. Johnston.

### BROWARD HALL

Broward Hall was constructed in 1917 and is one of the oldest residence halls on campus. It was named for Napoleon Bonaparte Broward, the 19th governor of Florida from 1905 to 1909, during whose term the Buckman Act reorganized higher education in the state and designated the Tallahassee school as the Florida State College for Women. Broward Hall was reopened in August 1998 as a coeducational hall after being closed for two years of renovation.

### FRANCIS EPPES HALL

This building was constructed in 1918 and is one of the last remaining classroom buildings on campus from the pre-FSU era. It was known simply as the Psychology Building until the university's sesquicentennial celebration in 2001, when it was named in honor of Francis Eppes. Eppes, a seven-term Tallahassee mayor and grandson of U.S. President Thomas Jefferson, led the effort to locate the Seminary West of the Suwannee River, the forerunner of FSU, in Tallahassee. Once the school opened, Eppes served 11 years on the school's board of directors, including eight years as president of the board. In 2008, the Psychology Department moved to its new building.

### REGIONAL REHABILITATION CENTER

This building was originally constructed in 1919 as the College Infirmary. As the College and Tallahassee grew, its role changed from student hospital to campus clinic, and today is remembered as the Clinic Building. In 1966, a new student health center was built and the Clinic was given to various departments for use as office space. In the mid-1970s, the building was renovated, and the back half of the building, with its connecting arcade, was demolished. Today it has been designated as the Rehabilitation Center for the Panhandle Area of Florida.

## Florida State University Buildings - Some Facts

### JENNIE MURPHREE HALL

This building was constructed in 1921. It was closed in 1991 for renovation, and reopened as a women's dormitory in 1993. The hall was named for Mrs. Jennie Murphree, a native of Tallahassee and the wife of Albert A. Murphree, the first president of Florida Female College. Today, the beauty of the Jacobean Revival architecture remains intact while the interior boasts state-of-the-art systems.

### DODD HALL

Dodd Hall was constructed in 1923. It was the library for FSCW and then FSU until 1956 when a new modern library was constructed. It is named for William George Dodd who joined the faculty of Florida State College for Women in 1910, became the head of the Department of English and went on to serve as the Dean of the College of Arts and Sciences for Florida State University. In 1982 the main library portion of the building was renovated and named the Pepper Library in honor of Claude and Mildred Pepper. The library has since been relocated to the Claude Pepper Center, and replaced by the Werkmeister Reading Room. In 1993, the Dodd Hall Auditorium was added to the building. Inscribed over the entrance to Dodd Hall in gold letters is "The Half of Knowledge, is to Know Where to Find Knowledge."

### GILCHRIST HALL

Gilchrist Hall was constructed in 1928 and named after Albert Waller Gilchrist, the 20th governor of Florida, who gave unwavering support to the Florida State College for Women as a state agency. Its gabled terra cotta roof, Gothic stonework and gently curved entrance clearly recall medieval monastic architecture. This collection is reflected in the hall's main lounge, which features an intricately carved fireplace, dark multi-toned tile flooring and grapevine motif doorway moldings. In August, 1998, Gilchrist reopened as a coeducational hall, after being closed for two years of renovation.

### WILLIAMS BUILDING

This building was constructed in 1926. It was known as the History Building until 1963 when it was named in honor of Arthur Williams. Dr. Williams, historian and Bible scholar, was the only vice president that Florida State College for Women ever had. Conradi Auditorium, located in a wing of this building, is named for Augusta Conradi, wife of Dr. Edward Conradi who served as President of Florida State College for Women for 32 years. In 2001, extensive renovation of the Williams Building was completed. While the renovation resolved many of the building's notable design quirks, its historical appearance was maintained.

### MONTGOMERY GYM

This building, constructed in 1938 as the physical education facility of Florida State College for Women, contains a heated indoor swimming pool, basketball court, and at the time of its completion, a bowling alley. The facility has been the home of the synchronized swimming team, The Tarpons, since its beginning. The bowling alley no longer exists but the pool, renovated in the mid-1980s, still is in operation. The building was named for Dr. Katherine Williams Montgomery, Miss Katie, as she was known to all, a 1918 graduate of FSCW. In 1920 she became an instructor of Physical Education at the College and in 1923 was named director of Physical Education. Dr. Montgomery died on October 1, 1958--the day she was to have retired officially from her duties at the Florida State University. In early 2004, major renovations to Montgomery Gym were completed.

### LONGMIRE BUILDING

This building was constructed in 1938 and was known for many years as the Alumni Building. It was originally constructed as a dormitory/hotel for visitors and returning alumni. The building had a working kitchen in the basement, with a large dining room and small parlor. The large dining room and parlor were used as reception rooms by the Alumni Association. The building was named for Miss Rowena Longmire. Miss Longmire was an English professor and also served as faculty advisor to the Alumni Association of FSCW, and in 1917 was president of the Alumni Association.

### LANDIS HALL

Landis Hall was completed in 1939 and was originally designated as a Seniors Hall. The building later became a coed facility. Landis Hall was named for Cary D. Landis, who was an Attorney General during the 1930s. The dormitory was renovated and reopened in fall 2006. Landis Hall sits at the south end of the courtyard known as Landis Green, with Strozier Library situated at the other end. Landis Hall is home to the FSU Honors Community. To celebrate Heritage Day in 2005, the Landis Green Legacy Fountain was unveiled. The fountain commemorates the history of the university with three sculptures representing the era between 1915-1947 and three depicting present day life on campus.

## University Libraries

The mission of the University Libraries is to support and enhance the learning, teaching, research, and service activities of the Florida State University by providing organized access to quality information in all formats, promoting information literacy, preserving information and engaging in collaborative partnerships to disseminate ideas to advance intellectual discovery. In support of this mission the libraries collections contain more than 3.4 million volumes, of which more than 477,000 are available electronically as e-books. The library subscribes to more than 62,000 current serials including academic journals, professional and trade journals, and major newspapers from around the country and the globe in both paper and electronic formats. The Libraries also subscribe to 440 databases, many of which are available for searching anytime or anyplace internet is available. Research assistance is offered by professional librarians in person, over the telephone, via e-mail and through live Internet chat sessions. Basic library and information literacy instruction sessions are available to classes and groups upon request. Materials not available at the libraries may be requested through interlibrary loan.

The FSU Libraries include 8 libraries on campus: The Robert Manning Strozier Library, Paul A. M. Dirac Science Library, Mildred and Claude Pepper Library, Warren Allen Music Library, Harold Goldstein Library and Information Studies Library, College of Law Library, College of Medicine Medical Library, and the College of Engineering Library. Library materials and services are also available at the FSU Panama City Campus, as well as International Programs study centers in London, Florence, and Panama, and a collection of art and related materials at the John and Mable Ringling Museum of Art in Sarasota, Florida.

The Center for Professional Development and the Office for Distributed and Distance Learning merged into one, comprehensive service unit -- Academic and Professional Program Services (APPS) -- to better serve faculty, students, and staff at the University, and students of all ages in the local, state, national, and international communities.

### *Professional Program Services*

**Continuing Education Units (CEUs) and Teacher Recertification.** In conjunction with the University's academic departments, APPS coordinates degree and certificate programs for non-traditional, part-time students. Programs can be found throughout Florida and some are delivered via distance technologies. Opportunities for teacher recertification and continuing education units (CEUs) are provided throughout the year.

**Non-Credit Programs.** APPS develops, promotes, and administers non-credit programs and certifications in traditional classroom settings and online. Lifelong learners can remain current in their fields and fulfill licensing and continuing education requirements through career skills development. Examples of current courses are: Certificate in Financial Planning Online, Continuing Legal Education Online, FSU Online Webmaster Certification Track, Seminole Strength and Conditioning, Test Preparation, and Writing Certificate Programs. Customized Technology Training is available upon request.

### *Academic Program Services*

APPS supports the University's mission to extend education statewide by offering courses and degree programs online and at many off-campus sites around the state.

**Faculty.** Support is provided to faculty members in their use of technologically mediated innovations in teaching. Online instructions and workshops help faculty develop web-based components for their residential classes and fully online courses. Assistance is provided through the Blackboard Educational Portal, the Center for Teaching and Learning (CTL), and the Center for Assessment and Testing (CAT).

**On-Campus Students.** Access and use of FSU's educational portal and learning management system ([campus.fsu.edu](http://campus.fsu.edu)) is provided with both onsite and online contacts for technical support and resources for learning via the web, as well as instruction in using the learning management system and its many tools.

**Distance Students.** Guidance is provided to students and departmental staff, from application and acceptance to any of the online degree programs, to orientation to the University (including scheduling of courses, instruction on navigating course websites, and other tools necessary for success). Students receive individualized attention from instructors, and some courses have mentors who guide students through course work and monitor their progress. Online bachelor's degree-completion programs are available in Computer Science/Software Engineering, Nursing, and Interdisciplinary Social Science. Students with an AA from a Florida community college or its equivalent, as assessed by FSU Admissions staff, and who have met the Liberal Studies requirement, can complete their bachelor's degrees online. The master's programs that are offered entirely online include: Business Administration, Communication Disorders, Criminology and Criminal Justice, Educational Leadership, Information Studies, Instructional Systems, Management Information Systems, Mathematics Education, Nursing, Physical Education, Risk Management/Insurance, Science Education, Social Work, and Special Education.

**Center for Teaching and Learning (CTL).** Faculty members can further their planning, teaching, and technology skills through workshops, classroom observations, and individual consultations. Graduate teaching assistants (TAs) are aided in improving their academic leadership and teaching skills through the Program for Instructional Excellence (PIE). Orientations, workshops, panel discussions, videotaping sessions, and individual consultations are designed to prepare graduate students for the range of responsibilities they will have as new instructors.

Academic Program Services (continued)

Educational Portal and Learning Management System (Blackboard) Support. This unit oversees all learning system maintenance and upgrades, technology training on upgrade enhancements, the academic help desk, and development of applications to further enhance the portal infrastructure for faculty, student, and staff use.

Center for Assessment and Testing (CAT). Faculty services include mark-sense scanning; test scoring and analysis; administering of University and department faculty evaluation instruments (SPOT, e-SUSSAI); and technical support for data collection and analysis in research. Student services include administering test taking for many national and state testing programs (e.g., CLAST, FTCE, ACT, SAT, LSAT, CLEP, and TOEFL); and providing proctored testing for distance-learning students.

## Intercollegiate Athletics

The "Seminoles" is the official designation of Florida State University men's and women's athletic teams. The symbol of university athletics at FSU is Chief Osceola. The official colors are Garnet and Gold. Florida State competes in the Atlantic Coast Conference (ACC) for all sports. The University named Randy Spetman as its Athletic Director in February 2008.

## Florida State University Ensembles

### Bands:

**Florida State Winds** This graduate student wind ensemble with flexible instrumentation performs large chamber works and also features guest soloists. The group tours and performs on and off campus at conferences and special events.

**Campus Band** The Campus Band is open to all students with interest and experience. It meets weekly during both semesters, responding to students' interests and abilities while rehearsing and performing a wide and diverse literature.

**Concert Band** The Concert Band is devoted to the rehearsal, study, and performance of important band literature.

**Marching Chiefs** The Marching Chiefs is a marching band of approximately 450 students that performs at all home football games and traditionally travels to two or three out-of-town games during the football season.

**Chiefly Brass** Chiefly Brass is a 60-member basketball pep band and spirit group.

**Wind Symphony** The Wind Symphony meets during the fall semester and is composed of upper level and graduate personnel. The Wind Symphony performs in tandem with the Symphonic Band.

**Symphonic Band** Although made up essentially of music majors, the Symphonic Band is open to all university students by comprehensive auditions. Two performances are scheduled each semester in addition to tours and frequent appearances at national conventions or conferences.

**Harmonie** Harmonie is composed of undergraduate students who are interested in the study and performance of chamber music.

**Wind Orchestra** The Wind Orchestra engages in professional level study of wind literature important to contemporary performing practices.

### Choral:

**Chamber Choir** The Chamber Choir is a highly select group of graduate and upper level undergraduate students performing repertoire particularly suitable for a 24- to 32-voice mixed choir both accompanied and a cappella.

**Choral Union** The Choral Union is open to any student enrolled in the University who wishes to sing. Both accompanied and a cappella selections are included in its repertoire. Public concerts are presented throughout the year.

**Madrigal Singers** The Madrigal group is composed of approximately 12 to 15 members chosen from the University Singers. The Madrigal Singers perform for various organizations within Tallahassee and the surrounding area during the Christmas season.

**Men's Chorus** The Collegians, the FSU men's glee club, is open to students enrolled in the University. Public concerts are presented throughout the year, including off-campus performances.

**University Singers** The University Singers is a select group of primarily undergraduate music majors. Their activities include public concerts, both on and off campus, as well as frequent tours and performances at professional conferences.

**University Chorale/Tallahassee Community Chorus** This ensemble is a large mixed ensemble that specializes in the music written for a large chorus and orchestra. The chorus is open to all students and the general public.

**Women's Glee Club** The FSU Women's Glee Club is open to students enrolled in the University. Public concerts are presented throughout the year, including off-campus performances.

### Orchestras:

**University Symphony** The University Symphony Orchestra consists of 100-plus members who perform the standard symphonic repertoire in a series of six concerts in Tallahassee and on tours both within Florida and throughout the Southeast.

**University Philharmonia** Membership in the University Philharmonia includes first- and second-year string students and is open to all other instrumentalists through competitive auditions.

**Chamber Orchestra** The Chamber Orchestra is a select organization of faculty members and the most advanced graduate and upper-level undergraduate students. Two concerts are presented yearly, both of which utilize College of Music faculty members as soloists.

**Opera Orchestras** Opera Orchestras are formed for the three fully staged operas that are presented each year.

### Jazz Ensembles:

**Jazz Ensembles** The College of Music has three large performing Jazz Ensembles. The top FSU Jazz Ensemble is a nationally acclaimed ensemble drawn from a select group of graduate and undergraduate students, many majoring in Jazz Studies.

**The Jazz/Pop Ensembles** The College of Music Jazz/Pop Vocal Ensemble performs in a variety of settings, and emphasis is placed on comprehensive use of musical and stage skills which culminate in dynamic public performances of jazz and popular vocal music.

**Chamber Music (Jazz Combos)** Small jazz ensembles historically have ranged from traditional New Orleans-style ensembles to modern or contemporary jazz ensembles. These ensembles are featured in a variety of performances that members and faculty schedule.

### Other Ensembles:

**Chamber Music** Various chamber ensembles are organized throughout the year for musicians involved in performing chamber literature.

**Opera** The FSU Opera presents fully staged productions, featuring students in principal roles, chorus, orchestra, and technical support.

**Early Music Ensembles** Approximately twelve ensembles that specialize in music written before 1650.

**Music Theatre** A joint program of the College of Music & School of Theatre to produce a major musical each fall among other performances.

**Special Ensembles** A wide variety of chamber groups and special ensembles offer students additional opportunities to perform.

## Glossary of Terms

**Academic Year** - Usually, consecutive fall and spring semesters, currently August through April; sometimes, however, summer semester is included in the term "academic year." In Florida, the summer term precedes fall and spring semesters in the school year.

**Administrative and Professional (A&P)** - A pay plan for middle and upper level administrative and professional positions. This pay plan category combines administrative employees, who are responsible for formulating, interpreting and implementing policies that affect the activities of the University, with professional employees, whose responsibilities are on a recognized level of comparability with the instruction and research personnel of the University.

**Articulation Agreement** - The articulation agreement between all 28 Florida junior/community colleges and the eleven state universities enables students to complete an associate in arts degree at any Florida community college and be admitted automatically into available upper division programs for the last two years of course work at any of the eleven state universities.

**Board of Education, State** - Board consisting of the Commissioner of Education and seven appointed members. This Board oversees Florida's education from kindergarten through graduate school (K-20) and the 13-member Boards of Trustees for each of the 11 public universities. See page 9 for a complete list of the board members.

**Board of Governors, Florida** - Board consisting of 17 members, 14 of whom are appointed by the Governor. In addition to the 14 members appointed by the Governor, the Board of Governors automatically includes the Commissioner of Education, the Chair of the Advisory Council of Faculty Senates and the President of the Florida Student Association. The statewide Board of Governors coordinates the State University System and supports the role of the 11 individual University Boards of Trustees. See page 9 for a complete list of the board members.

**Board of Trustees, Florida State University** - A 13-member board which governs Florida State University. It is composed of 12 appointed members and FSU's student body president. The trustees are appointed by the Governor, subject to confirmation by the Senate, and serve for staggered four-year terms. The board of trustees performs duties as assigned by law or by rule of the Florida Board of Education. See page 8 for a complete list and brief biography of the board members.

**CIP (Classification of Instructional Programs) Discipline Code** - These codes represent a nationally used, common taxonomy for the classification of higher education degree programs. The CIP classification describes content of the programs at three levels with each providing varying levels of detail. A directory of the CIP codes can be found online at <http://nces.ed.gov/pubs2002/cip2000/>

**Common Course Numbering System** - Developed in 1978, the common course numbering system is a statewide system of prefixes and numbers for courses offered by all postsecondary and participating private institutions in Florida. Its purpose is to make transferring easier by identifying equivalent courses, all of which carry the same prefix and last three digits; the title of the course may vary at different institutions.

**Contracts and Grants (C&G) Budget** - A budget entity which deals primarily with sponsored research activities and federally-funded educational grants. Also called Sponsored Research budget.

**Credit Hour** - College credit is the type of credit assigned to courses or course equivalent learning that is part of an organized and specified program leading to a graduate, baccalaureate, or associate degree. One (1) college credit is based on the learning expected from the equivalent of fifteen (15) fifty-minute periods of classroom instruction. Credits for such things as laboratory instruction, internships, and clinical experience are determined by the institution based on the proportion of direct instruction to the laboratory exercise, internship hours, clinical practice hours (Source: 6A-10.033 (1)(a), FAC).

**Division of Colleges and Universities** - Organization created to oversee the eleven state public universities and their 13-member Boards of Trustees. The Division of Colleges and Universities reports to the Board of Education.

**Educational and General (E&G) Budget** - A budget entity which provides instructional programs leading to formal degrees, and for research and public service programs.

**Faculty** - This category includes all individuals in the educational program who hold the title of Professor, Associate Professor, Assistant Professor, and Instructor, including those with titles preceded by the term "visiting," "adjunct," "clinical," or any other designation. The collective bargaining agreement currently in force includes in the faculty population all Developmental Research School (university lab school) personnel, all University Librarian classifications, staff physicists, and the President.

**Fiscal Year** - A 12-month period running from July 1 through the following June 30.

**Florida Endowment Trust Fund for Eminent Scholars** - The Trust Fund established in the State Treasury for Eminent Scholars provides the opportunity for each state university to match and receive challenge grants to create endowments for selected eminent scholars to occupy Chairs within the university.

## Glossary of Terms

**FTIC (first-time-in-college)** - An entering freshman, or a first-year student. Any student entering with fewer than 12 hours of college credit is classified as an FTIC.

**Full-time Equivalent (FTE) Student Calculation Factors** - Under the semester system, the factors for calculating the number of student FTE's generated are as follows:

Fall and Spring Terms:	15 undergraduate student credit hours equal 1 FTE;
	12 graduate student credit hours equal 1 FTE.
Summer Term:	10 undergraduate student credit hours equal 1 FTE;
	8 graduate student credit hours equal 1 FTE.

**Full-Time Equivalent (FTE) Employee** - A numerical designator for an appointment based on 100% for full time. An FTE for a full-time employee is 1.00. (Two people each serving in half-time faculty positions would equal, together, one FTE faculty position.)

**Full-Time Equivalent (FTE) Student** - A measure of student enrollment based on the number of student credit hours for which students enroll. See definition of *Full-time Equivalent FTE Student Calculation Factors* for other FTE equivalencies.

**Full-Time Filled Position** - A position in which a person or persons are appointed at a total FTE of 1.00.

**Full-Time Student** - Generally classified as an undergraduate student taking 12 hours or more in the fall or spring, 9 hours or more in the summer; or a graduate student taking 9 hours or more in the fall or spring, 6 hours or more in the summer.

**Instructional Activity File (IAF)** - An automated file prepared each term which contains specific data on course section, enrollment and credit hours. The IAF will be integrated into the new Student Information File (SIF) beginning in 2008-09.

**Instruction and Research Data File (IRDF)** - A file generated from the Personnel Activity Reporting System (PARS) file which contains detailed data on course section, enrollment, and credit hours, as well as funding and demographic information on instructors.

**IPEDS (Integrated Postsecondary Education Data System)** - IPEDS is the core postsecondary education data collection program in the U.S. Department of Education's National Center for Education Statistics (NCES). It was designed to help NCES meet its mandate to report full and complete statistics on the condition of postsecondary education in the United States. It is a single, comprehensive data collection system developed to encompass all institutions and organizations whose primary purpose is to provide postsecondary education. IPEDS is built around a series of interrelated surveys to collect institution-level data in such areas as enrollment, program completions, faculty and staff, and financing.

**Major Code** - A six-digit number assigned to an area of study designated as the student's major field. (The diploma given by the University indicates the degree awarded and the approved degree program.)

**Major Field of Study** - Students are classified as majors according to their selection of a primary field of study. This field must be selected from approved degree programs and university approved majors within each degree program.

**Occupation Code** - A four-digit code which indicates the title and general description of the position to which a person is appointed. Occupation codes range from 0001 to 9179 and 9199 to 9499 for regular salaried positions. The range 9180-9198 is reserved for student related titles. Graduate assistants, post doctorates and fellows are appointed to classifications within this range. All codes within this latter range are paid through OPS funds. Faculty, A&P and USPS may be appointed on OPS in the entire range of occupation codes; this, however, is limited primarily to faculty appointments.

**Operating Budget** - An expenditure plan developed for each fiscal year. The plan must conform to the annual allocation/appropriation and list estimated expenditures by budget category for the year.

**Other Personal Services (OPS)** - This is one of two sources of salary funds. Persons paid from OPS are performing temporary work of some nature. There is no continuing obligation on the part of the state toward persons on OPS appointments.

**Preliminary Headcount Enrollment** - The enrollment taken from the official data files of the university as of the end of the 28th calendar day of the term. This figure includes all students, fundable and non-fundable, who are on the Student Data Course File.

**State Fundable Student Credit Hours** - Those student credit hours for which the University receives funding by the state.

**Student** - A person who has actively entered into a relationship with an academic program of the University in an officially recognized capacity.

## Glossary

Student Classification Level (from Student Data Course File) - Students are classified on division levels as follows:

Lower Division:	A student who has earned fewer than 60 semester credit hours (90 quarter hours), or a student who has not been admitted to upper division.
Upper Division:	A student who has earned 60 semester credit hours (90 or more quarter hours), or has an AA degree, or is working toward an additional bachelor's degree.
Beginning Graduate:	A graduate student who has been formally admitted to a graduate degree program and is not an advanced graduate student.
Advanced Graduate:	A graduate student who has been formally admitted to a recognized doctoral or post-master's degree program and who has accumulated 36 semester credit hours (54 or more quarter hours) toward his/her degree program, or has a master's degree.
Unclassified:	A student waiting to be admitted to a degree program, or not seeking a degree.

Student Course Loads (FSU Bulletin) - Students are classified on the basis of semester hours earned as follows:

Freshman:	Zero to 29 semester hours (0-35 quarter hours)
Sophomore:	30 to 59 semester hours (minimum of 36 quarter hours)
Junior:	60 to 89 semester hours and all lower division requirements (a minimum of 84 quarter hours)
Senior:	90 semester hours (minimum of 132 quarter hours)
Graduate:	Any student admitted to a graduate program
Unclassified:	Any student not yet admitted to a degree program, including: Special Non-Degree Seeking without Baccalaureate Degree Special Non-Degree Seeking with Baccalaureate Degree Provisional Transient High School Students

Student Credit Hours - A measure which is equal to the product of the number of students enrolled in a course section times the number of credit hours for the course section. Student Credit Hours for which the University receives funding by the state are called State Fundable Student Credit Hours (SFSCH). Not all SCH are fundable - for instance, credit hours produced by some fee waivers and by students enrolled for audit are not state fundable.

Lower Level SCH:	Hours generated by courses numbered between 1000 and 2999.
Upper Level SCH:	Hours generated by courses numbered between 3000 and 4999.
Graduate I Level SCH:	Hours generated by courses numbered between 5000 and 8999 and not Graduate II courses.
Graduate II Level SCH:	Hours generated by courses numbered between 5000 and 8999 and student's classification level is Advanced Graduate and degree level sought is Advanced Master's, Specialist or Doctorate and student program category is an authorized Doctoral degree program.
Graduate III Level SCH:	Hours generated by courses numbered between 5000 and 9999 and course section type is M (Medical).

Student Data Course File (SDCF) - An automated file prepared each term which lists specific data on all students and student enrollments. The SDCF will be integrated into the new Student Information File (SIF) beginning in 2008-09.

Student Headcount Enrollment - The actual number of individual students enrolled at a specified time regardless of whether the students are attending full-time or part-time.

Tenure - The condition attained by a faculty member through highly competent scholarly activities which assures the faculty member security of employment and immunity from reprisals or threats due to an intellectual position or belief which may be unpopular, and which guarantees annual reappointment for that faculty member until voluntary resignation, retirement, or removal for adequate cause.

University Support Personnel System (USPS) - A pay plan and personnel system for classified employees to include the following positions: professional, paraprofessional, administrative, clerical, secretarial, technical, skilled crafts, service or maintenance duties.
